Our VISION is that every child who joins a tutor/mentor program in 7th or 8th grade is starting a job and career of his choice by age 25.

All across Chicago, tutoring and mentoring programs are giving children the extra help they need to achieve their goals by providing safe, educational after-school alternatives.

Just a few hours a week can make a difference in a child’s life.

By providing homework help, arts, creative learning opportunities, and positive role models; tutoring and mentoring programs are helping children build self esteem and retain more of what they learn in school.

Our MISSION is to engage workplace adults in structured activities that make a life-changing difference for youth living in economically and educationally disadvantaged neighborhoods.

Committed adults are needed to donate their time and resources to help these programs reach more children, and to start programs where there are none.
