Role of Leaders.
Point daily to places where people can get informed, and involved, sharing same information with others from same community, and the world.

- **Maps/data** — create understanding; understand needs in entire region; zoom to block level

- **Knowledge** — library; share info. Everyone in region can draw from same body of knowledge, and add to it at same time

- **Places** — connect; get involved; donate. Push resources to all of the places where help is needed.
